PUZZLED PARROTS

Adaptation of: Transom, c. 1905. Parrots, leaded glass, Tiffany Studios, New York City, 1902–32 (68-005).

INSTRUCTIONS:

Download and print file. Gather materials.
Follow steps 1–4.

MATERIALS:

- 8 ½" x 11" white paper
- Printer
- Puzzle template
- Colored pencils and/or crayons
- Paperboard (see step 2)
- Glue stick
- Scissors

tourwindows/parrots-transom](http://www.morsemuseum.org/collection-highlights/audio-tourwindows/parrots-transom)

Step 1: Color puzzle template using colored pencils and/or crayons. Refer to the image of the original artwork (see Resources) for a color palette or create a different combination.

Step 2: Find a piece of paperboard to use as a backing. Paperboard is used to make boxes for cereals, cookies, crackers, and multi-packs of canned soda, so check the recycle bin! Flatten the paperboard so the surface is even and smooth. Glue puzzle template to paperboard using a glue stick.

Step 3: Cut along the thick black line that makes the rectangular border of the puzzle template.

Step 4: Cut along the lines of the puzzle pieces until there are nine individual pieces.
